zanotta: 2018/2019

Dal 1954 a oggi, la storia di Zanotta incrocia le storie degli uomini: quelli che ne hanno curato il progetto culturale, quelli che hanno messo le proprie mani al servizio della visione aziendale, quelli che hanno fatto un'instancabile ricerca tecnologica e sperimentale per dare ai sogni degli architetti e dei designer la forma della bellezza. Ma anche di quegli uomini e quelle donne che intorno a questo immaginario simbolico, fluido, leggero, ironico hanno costruito il proprio abitare, gli uomini e le donne del mondo al quale Zanotta da più di sessant'anni guarda come mercato. L'esito di questo lavoro di cura, coraggio e saper fare è una collezione unica nel panorama del design, con più di 100 designer che hanno realizzato 550 prodotti, dei quali 304 sono presenti nei musei di tutto il mondo. Una storia che è la storia del design e dell'architettura del Novecento e insieme un esemplare inventario antropologico dei progetti che lo hanno abitato. Oggi Zanotta è la sponda calda, familiare, informale del gruppo Tecno.

Zanotta's story has been intertwined with men's stories ever since 1954: the men who were in charge of the cultural project, those who put their hands at the disposal of the company's vision, those who performed untiring technological and experimental research to shape the dreams of architects and designers with beauty. But also of those men and women who built their own living environment around this symbolic, fluid, light-weight and ironic imaginary notion; those men and women across the world who have made up Zanotta's target for over sixty years. The outcome of this painstaking care, courage and know-how is a collection that is one-of-a-kind in the design world, having involved more than one hundred designers who conceived 550 products, of which 304 are now in museum collections all over the world. A story that is the story of 20th Century design and architecture and also a perfect anthropological inventory of its constituent projects. Today, Zanotta is the warm, domestic and informal side of the Tecno group.

Achille (1918-2002)
e Pier Giacomo (1913-1968)
Castiglioni.

Una seduta per stare comodi, ma non troppo; seduti, ma non troppo a lungo; indicato in special modo per scoraggiare l'eterno protrarsi di conversazioni telefoniche quando l'apparecchio nelle case era ancora fissato alla parete e lo sgabello offriva appoggio per una breve sosta conversativa. Un gesto tra il dadaista e il readymade, e un colore omaggio alla "maglia rosa" che proprio nel 1957, quando i fratelli Castiglioni progettaron la seduta, correva la quarantesima edizione al Giro d'Italia.

A seat designed to be comfortable, but not too comfortable; seated, but not for long; recommended particularly to discourage the endless continuation of phone calls when the land-line phone was still secured to the wall and the stool provided the opportunity to sit down for a quick chat. An appearance mid-way between Dadaist and ready-made, and a colour that pays tribute to the "pink shirt" dating back specifically to 1957, when the Castiglioni brothers designed the seat, during the fortieth edition of the Giro d'Italia.

Con questo nome omaggio piuttosto insolito, l'oggetto evoca le neoavanguardie, dalla provocatorietà dell'Arte Povera all'ironia della Pop Art. L'assemblaggio di componenti artigianali e industriali tiene insieme in un gioco duchampiano: il mondo agricolo nella seduta in lamiera e nella balestra in acciaio, quello del ciclo nel perno di fissaggio e quello nautico nella traversa in legno di faggio. Mezzadro è un messaggio forte e chiaro di libertà nella definizione dell'ambiente spaziale domestico.

With this rather unusual homage name, the object brings to mind Neo Vanguardism, from the provocative nature of Arte Povera to the irony of Pop Art. Like a work by Duchamp, the assembly of craft-based and industrial components holds together: the farming world in the sheet metal seat and the steel crossbow, the cycling world in the fixing pin and the nautical one in the beech wood crosspiece. Mezzadro is a loud and clear message of freedom to define the domestic spatial environment.

Nella foto: sgabello **Mezzadro**. Tavolo **Santiago**, sedie **June**. / In the picture: **Mezzadro** stool. **Santiago** table, **June** chairs.

Questa seduta per esterni è un omaggio a uno degli eventi più importanti della “conquista dello spazio” (celebrata con lo sbarco sulla luna nel 1969): la ricognizione mediante sonde dell’unico satellite terrestre. Ma i Castiglioni sdrammatizzano la solennità con un oggetto leggero, aereo, che dà spazio all’erba di crescere intorno e minimizza la proiezione dell’ombra sulla terra. Un piccolo passo per l’uomo...

This outdoor seat pays homage to one of the most important events in the “conquest of space” (celebrated with man landing on the moon in 1969): recognition using sensors of the earth’s only satellite. However, the Castiglioni brothers played down the solemnity with a light-weight, suspended object, which allows grass to grow under and all around it and minimises the projection of the shadow onto the ground. One small step for man...

Negli anni Sessanta e Settanta, il poliuretano è l'oro elastico delle aziende del mobile. Le schiume integrali definiscono una sorta di progetto naturalista, spontaneo, libero e informale. La combinazione con un inginocchiatoio, tipologia severa e devozionale, crea un cortocircuito tipico castiglionesco.

In the Sixties and Seventies, polyurethane was flexible gold for furniture manufacturers. Solid foams define a kind of naturalist, spontaneous, free and informal design. The combination with a kneeler, strict and devotional in nature, creates a short-circuit effect typical of the Castiglioni brothers.

Poltrone anatomiche
Involucro contenente palline di polistirolo espanso ad alta resistenza, disponibili in 3 differenti misure. Rivestimento in Vip (per esterni), Volo, Pied de poule e pelle. La versione in Pied de poule é sfoderabile. La versione in tessuto Volo è disponibile con due decori stampati con tecnica digitale: rispettivamente decoro Big eyes e decoro Solid per il Sacco Small, decoro Solid e decoro Up per i modelli Sacco Medium e Sacco. Il tessuto Vip è anche per esterni, resistente al fuoco, antibatterico con trattamento Silverguard® e antimacchia con trattamento Permacblock 3®.

Anatomical easy-chairs
Envelope containing highly resistant expanded polystyrene pellets, available in 3 different sizes. Cover in: in Vip (for outdoor), Volo, Pied de poule and leather. The version in Pied de poule is removable. The model in Volo fabric is available with two digital printed decorations: respectively Big eyes and Solid decorations for the Sacco Small, Solid and Up decorations for the Sacco Medium and Sacco. The Vip fabric is also for outdoor, fire-resistant, antibacterial with Silverguard® treatment and stain-proof with Permacblock 3® treatment.

Fauteuils anatomiques
Housse contenant de petites billes de polystyrène à grande résistance. Revêtement en : Vip (pour extérieurs), Volo, Pied de poule et cuir. La version en Pied de poule est déhoussable. La version en tissu Volo est disponible dans deux motifs imprimés avec une technique digitale: respectivement motif Big eyes et motif Solid pour Sacco Small, motif Solid et motif Up pour les modèles Sacco Medium et Sacco. Le tissu Vip est aussi pour extérieurs, résistant au feu, antibactérien avec traitement Silverguard® et antitache avec traitement Permacblock 3®.

Anatomische Sessel
Hülle mit aufgeschäumten Polystyrol-Kügelchen gefüllt, widerstandsfähig. Bezug aus: Vip (fürs Freie), Volo, Pied de poule und Leder. Der Bezug aus Pied de poule ist abnehmbar. Das Modell mit Volo-Bezug ist in zwei unterschiedlichen Dekorationen erhältlich, die mit Digitaltechnik bedruckt werden: Big Eyes und Solid für Sacco Small; Solid und Up für die Modelle Sacco Medium und Sacco. Der Bezug Vip ist auch fürs Freie, feuerbeständig und anti-bakteriell, mit Behandlung Silverguard® und Fleckenschutz mit Behandlung Permacblock 3®.

Butacas anatómicas
Bolsa rellena de bolitas de poliestirol expando de alta resistencia. Tapizado en: Vip (para exteriores), Volo, Pied de poule y piel. La version en Pied de poule es desenfundable. El modelo en tejido Volo está disponible en dos decoraciones estampadas con técnica digital: respectivamente decoración Big eyes y decoración Solid por Sacco Small, y decoración Solid y Up por los modelos Sacco Medium y Sacco. El tejido Vip es tambien para exteriores, resistente al fuego, antibacteriano con tratamiento Silverguard® y anti-mancha con tratamiento Permacblock 3®.

“Tra il 1967 e 1968 andava di moda la cosiddetta ergonomia. A noi interessava progettare oggetti il più possibile flessibili, che potessero adattarsi [...] Così abbiamo iniziato a riflettere sul materiale che permettesse questa adattabilità: come la neve in cui uno si butta e ci lascia impresso sopra lo stampo del suo corpo.” In realtà, l’ispirazione dei tre progettisti viene dai sacchi di iuta dei contadini e qui riadattati in un tessuto imbottito di polistirolo. Simbolo di libertà, nomadismo e “immaginazione al potere”, come nelle strade si andava celebrando proprio nell’anno della progettazione...

“What was referred to as ergonomics was fashionable between 1967 and 1968. We were interested in designing objects which were as flexible as possible, which could adapt [...] So we started to think about which material could allow this adaptability: like the shape of your body left behind when you lie down in snow.” In actual fact, the inspiration of the three designers originates from farmers’ jute sacks, which have been adapted here in a polystyrene padded fabric. A symbol of freedom, nomadism and “power to the imagination”, just like the words being chanted through the streets the year it was designed...

Così celebre da avere addirittura dedicata una voce di Wikipedia, questo appendiabiti ha un funzionamento altamente sofisticato ma al contempo immediato che, come suggerisce il suo nome, simula, nell'apertura, l'operazione che si fa per iniziare il famoso gioco da tavolo cinese. Il trio più dirompente del design degli anni Settanta, ha inaugurato un approccio all'“abitare fresco” destinato a rivoluzionare il modo di intendere l'abitare borghese contemporaneo.

Famous enough to have earned itself a mention on the Italian version of Wikipedia, this clothes-stand features highly sophisticated while at the same time immediate functioning which, as its name suggests, simulates - on opening - the movement one makes to start the famous Mikado or pick-up-sticks game. The most disruptive trio in the world of design in the Seventies inaugurated an approach to “fresh living” intended to revolutionise the way of interpreting contemporary bourgeois living.

I primi due membri della famiglia “Servi”, un posacenere e un portaombrelli, furono disegnati nel 1961 dai fratelli Castiglioni per l’apertura di una birreria da loro progettata. Ma con l’andare del tempo la famiglia è cresciuta fino a coprire una estesa e quantomeno bizzarra serie di funzioni, tra le quali un portastendardo, un leggjo da cerimonia e un paravento. L’idea tipica castiglionesca dell’adattabilità, della doppia funzione, del reimpiego astuto trovano in questa arguta sfilata di complementi il proprio romanzo illustrato.

The first two members of the “Servi” family, an ashtray and an umbrella stand, were designed by the Castiglioni brothers for the opening of a pub they had designed in 1961. Yet as time went by, the family expanded to cover an extensive if somewhat bizarre series of functions, including a flagpole, a ceremony book stand and a folding screen. Castiglioni’s typical ideal of adaptability, of double function, of astute re-use finds its illustrated novel in this witty range of items.

Castiglioni diceva:
 “un buon progetto non nasce dall’ambizione di lasciare un segno, il segno di un designer, ma dalla volontà di instaurare uno scambio anche piccolo con l’ignoto personaggio che userà l’oggetto da noi progettato”. In questo caso, alieno treppiedi o antesignano in formato arredo domestico del Bosco Verticale, il portavasi Albero è esso stesso un insolito personaggio che popola di presenza l’ambiente domestico.

Castiglioni used to say: “a good design doesn’t come from the ambition to leave a mark, the mark of a designer, but from the desire to establish an exchange, however small, with the unknown character who will use the object we have designed”. In this case, a three-legged alien or the forerunner of the Bosco Verticale (Vertical Forest) in the shape of a domestic furnishing, the Albero plant stand is in itself an unusual character that populates the domestic setting with its presence.

Paola Antonelli ha definito questo tavolo pieghevole uno dei migliori esempi di “redesign” di Castiglioni: “egli sceglie un oggetto esistente da decenni, a volte addirittura da secoli, e lo adatta a tecnologie e condizioni di vita attuali. Il designer ha qui aggiornato il classico tavolino da esterni per bar rendendolo pieghevole per mezzo di un’ingegnosa giuntura formata per iniezione e praticando anche un foro nel ripiano, in modo tale che il tavolo ripiegato possa essere riposto più facilmente o appeso come decorazione.

Paola Antonelli defined this folding table as one of the best examples of Castiglioni’s “redesign” examples: “he picks an object that has existed for decades, sometimes even for centuries, and adapts it to current technologies and lifestyles. The designer in this case has updated the classic outdoor coffee table for cafés, making it in a folding version thanks to the ingenious injection-moulded joint and also drilling a hole in the shelf, so that the folded table can be easily stowed away or hung up like a decoration.

Max Bill
(1908-1994)

Architetto, designer, pittore, scultore e grafico, teorico e docente, Max Bill è l'esempio di artista totale delle neovanguardie. Nel design il suo principale e definitivo contributo è aver dato vita alla scuola di Ulm, erede della lezione del Bauhaus di Weimar, ma ancor più radicalizzata sul tema del rapporto oggetto-macchina, sul razionalismo rigoroso e minimale e, naturalmente, la forma come propagazione dell'assolutismo della funzione. Questa vocazione austera è perfettamente incarnata in questo piccolo complemento che sta per compiere ben 70 anni, dimostrando l'incredibile visionarietà del suo autore.

Architect, designer, painter, sculptor, and graphics expert, theoretician and lecturer, Max Bill is the epitome of the total Neo Vanguard artist. In the world of design, his principal and definitive contribution was to give rise to the school of Ulm, heir of the Bauhaus lesson in Weimar, but even more deeply rooted to the issue of the object-machine relationship, to rigorous and minimal rationalism and, naturally, shape as a propagation of the absolutism of function. This austere vocation is perfectly embraced in this small item of furnishings which is about to celebrate its 70th anniversary, demonstrating the incredible visionary concept of its creator.

Carlo Mollino
(1905-1973)

Carlo Mollino è un architetto eclettico attivo fin dagli anni Trenta: progetta edifici, come la sede della facoltà di Architettura di Torino ma anche aeroplani, che lui stesso pilota. Ma Mollino non è solo un geniale progettista, un architetto con solidissime competenze tecniche ed ingegneristiche, un visionario; è anche un anticonformista, un eccentrico e uno spregiudicato con una grande carica estetizzante che sublima soprattutto in alcuni progetti destinati alle abitazioni private, come il tavolino Arabesco, progettato nel 1949 e destinato a Casa Orengo, a Torino.

Carlo Mollino is an eclectic architect who has been active from the Thirties: he has designed buildings, such as the faculty of Architecture building in Turin, as well as aircraft, which he himself pilots. However, Mollino is not just a genius designer, an architect with extremely solid technical and engineering skills, a visionary; he is also an anti-conformist, an eccentric and a ruthless mind with a massive charge of styling which is especially evident in some of the designs intended for private homes, such as the Arabesco coffee table designed in 1949 and intended for Casa Orengo, in Turin.

contract

Contenitori
Struttura in lamiera d'acciaio verniciata colore bianco. I contenitori possono essere a giorno, con cassetti o con anta con apertura a scomparsa brevettata (patent n° MI2011A000131). I contenitori a giorno sono disponibili con verniciatura interna colore rosso (Ral 3003), giallo (Ral 1023) o antracite (Ral 9004). Tutti i contenitori possono essere disposti in linea o sovrapposti in colonne di uguale larghezza o comunque non sovrapposti su punti intermedi della larghezza dei contenitori sottostanti. Il carico di portata massimo distribuito non deve superare 1,5 kg al dm2. A partire dal secondo livello e oltre tutti i contenitori devono essere assicurati a parete. L'altezza massima consentita delle composizioni è di 184 cm.

Storage units
Steel sheet frame painted the shade of white. Storage units can be either open, or with drawers or with a patented sliding door (patent n° MI2011A000131). Open storage units are available painted in the shade of red (Ral 3003), yellow (Ral 1023) or anthracite (Ral 9004) on the inside. All storage units can be placed in a row or stacked in columns the same width or, however, not stacked at intermediate points of underlying storage unit widths. The maximum distributed load

must not exceed 1,5 kg / dm2. Starting from the second level upwards, all storage units must be fastened to wall. The max allowed height of the compositions is 184 cm.

Caissons
Structure en tôle d'acier peinte en blanc. Les caissons peuvent être ouverts, avec des tiroirs ou avec une porte à coulisse brevetée (patent n° MI2011A000131). Les caissons ouverts sont disponibles avec une peinture intérieure de couleur rouge (Ral 3003), jaune (Ral 1023) ou anthracite (Ral 9004). Tous les caissons peuvent être disposés en ligne ou superposés, pour former des colonnes de la même largeur ou, dans tous les cas, pas superposés sur des points intermédiaires de la largeur des caissons du dessous. La charge de portée maximale distribuée ne doit pas dépasser 1,5 kg par dm2. A partir du deuxième niveau et au-delà, tous les caissons doivent être assurer au mur. L'hauteur maximale accordée pour les compositions est 184 cm.

Behälter
Gestell aus weiß lackiertem Stahlblech. Die Behälter sind offen, mit Schubladen oder patentierter Schiebetür erhältlich (patent n° MI2011A000131). Die offenen Behälter sind mit roter (Ral 3003), gelber (Ral 1023) oder anthrazitfarbener (Ral 9004)

Innenlackierung erhältlich. Alle Behälter können nebeneinander oder in Säulen gleicher Breite übereinander gestellt werden (die Behälter dürfen nur Ecke auf Ecke mit den darunter liegenden gestellt werden, nicht auf andere Punkte ihrer Breite). Die verteilte Höchstlast darf maximal 1,5 kg pro dm2 betragen. Ab der zweiten Schicht müssen alle Behälter an der Wand befestigt werden. Die zulässige Höchsthöhe der Kompositionen ist 184 cm.

Contenedores
Estructura en chapa de acero barnizada color blanco. Los contenedores pueden ser abiertos, con cajones o puerta corredera patentada (patent n° MI2011A000131). Los contenedores abiertos están disponibles con barnizado interno color rojo (Ral 3003), amarillo (Ral 1023) o antracita (Ral 9004). Todos los contenedores pueden disponerse en línea o sobreponerse en columnas con un ancho igual o en cualquier caso no pueden sobreponerse en puntos intermedios del ancho de los contenedores situados debajo. La carga de capacidad máxima distribuida no debe superar 1,5 Kg por 1 dm2. A partir del segundo nivel y superiores todos los contenedores deben ser asegurados en la pared. La altura máxima permitida de las composiciones es 184 cm.

“[...] uno dei postulati
della tendenza razionale è
appunto che le nuove forme
architettoniche, nei loro
rapporti di vuoto e di pieno,
di masse pesanti (cemento,
mattoni, pietre) e di strutture
leggere (ferro, vetro) abbiano
a donar all’osservatore
un’emozione artistica.”

“[...] one of the assumptions of the
rational trend is in fact that the new
architectural shapes, in their relations
of blocks and voids, of heavy masses
(concrete, bricks, stones) and light-
weight structures (iron, glass) should
give the observer an artistic emotion.”

Base de madera lacada en negro. Estructura de acero con suspensión sobre cintas elásticas. Acolchado de poliuretano/fibra poliéster termounida. Tapizado desenfundable en los tejidos Talento, Tibet, Teatro y Top.

“Tutto è permesso, sempre salva la fantasia” è un motto di Carlo Mollino diventato assai celebre per inquadrare la libertà dell’arte, al di sopra ed al di fuori di ogni limitazione. La sinuosità delle forme, la struttura lignea e il contrasto col poliuretano della seduta danno l’idea di un omaggio sensuale a quel mondo trasgressivo, libertario e al tempo stesso dolcissimo, cui l’architetto torinese era particolarmente dedito.

“Everything is allowed, the imagination always saves the day” is a motto by Carlo Mollino which has become rather famous to render the freedom of art, above and beyond all limits. The sinuous shapes, the wooden structure and the contrast with the polyurethane seat bring to mind the idea of a sensual tribute to that transgressive, libertarian and at the same time sweet world which the Turin-based architect was particularly fond of.

C – Die Neue Sammlung, München

Marco Zanuso (1916-2001)
Attivo dal 1945 nel design, nell'architettura e nell'urbanistica. Ha collaborato alla fondazione di ADI e all'istituzione del premio Compasso d'Oro. Nel 1947 inizia la progettazione di mobili in tubo metallico, reinterpretando la tradizione del Razionalismo. / In 1945 he kicked off his career as a designer, architect and planner. He took part in the establishment of the Industrial Design Association and the conception of the Compasso d'Oro award. In 1947 he began to design furniture in metal tubing, reinterpreting the Rationalist tradition.

Marco Zanuso è uno dei padri del “movimento moderno” e quindi, del design italiano stesso. Architetto, urbanista, grande designer ha progettato alcune delle più memorabili icone, in parte firmate, dalla fine degli anni Sessanta, insieme a quell’altro genio di Richard Sapper. Il suo legame con il mondo dell’industria è testimoniato dalla specializzazione nel progetto di stabilimenti, tra i quali Olivetti, in Sud America, Brionvega e IBM.

Marco Zanuso is one of the founding fathers of the “modern movement” and therefore of Italian design itself. Architect, urban planner and a great designer, he has designed some of the most memorable icons, partly signed, since the end of the Sixties, together with another great genius, Richard Sapper. His bond with the world of industry is testified by the specialisation in the planning of production plants, such as Olivetti, in South America, Brionvega and IBM.

Gabriele Mucchi
(1899-2002)

L'autore di questa sinuosa chaise longue è un personaggio abbastanza anticonvenzionale per formazione e provenienza. Pittore, appartenente al gruppo del Novecento italiano, partigiano, architetto (contribuirà alla progettazione del quartiere QT8 a Milano), disegna per Zanotta nel 1935 un oggetto classico, elegantissimo.

The designer of this sinuous chaise-longue is quite an anti-conventional character in terms of training and origin. A painter from the 20th Century Italian group, a partisan and an architect (he contributed to designing the QT8 neighbourhood in Milan), he designed a classic, ultra-stylish object for Zanotta in 1935.

De Pas-D'Urbino-Lomazzi

Architetti, nati a Milano negli anni '30, negli anni '60 sviluppano con particolare interesse un'attività di creazione di mobili ed architetture temporanee, caratterizzati dall'uso di segni, materiali e tecnologie industriali avanzate, tra cui l'iconica poltrona gonfiabile Blow. / These three architects were born in Milan in the 1930s; during the '60s they focused especially on furniture and temporary buildings featuring avant-garde signs, materials and industrial technologies, including the iconic inflatable armchair Blow.

“Tre uomini in barca”. Così, Giovanni Klaus Koenig nel 1989, ha definito il trio De Pas-D'Urbino- Lomazzi, rendendo bene l'idea di una piccola comitiva di creativi impegnati a svagarsi, ma con regole molto ferree e una conoscenza tecnica elevatissima. Onda è una delle grandi icone, anche pubblicitarie, del design nel pieno degli anni Ottanta.

“Three men in a boat”. This is how Giovanni Klaus Koenig defined the De Pas-D'Urbino-Lomazzi trio in 1989, giving a good idea of a small gathering of creative minds busy enjoying themselves, but with extremely strict rules and outstanding technical expertise. Onda is one of the great icons of design - also advertising - from smack in the middle of the Eighties.

Divani monoblocco

Struttura in acciaio. Molleggio su nastri elastici. Cuscino seduta in poliuretano/ Dacron Du Pont, schienale e braccioli in piuma d'oca. Piedini in acciaio nichelato e spazzolato. Rivestimento sfilabile in stoffa o in pelle.

Monobloc sofas

Steel frame. Elastic strips suspension. Single seat cushion in polyurethane/ Dacron Du Pont, back and armrests cushions in new goose feathers. Nickel-plated and brushed steel feet. Removable, fabric or leather cover.

Canapés monoblocs

Structure en acier. Suspension sur sangles élastiques. Coussin siège en polyuréthane/ Dacron Du Pont, coussins dossier et accoudoirs en plume d'oie. Pieds en acier nickelé et brossé. Revêtement déhoussable en tissu ou en cuir.

Einteilige Sofas

Gestell aus Stahl. Federung mit elastischen Gurten. Sitzkissen aus Polyurethan/ Dacron Du Pont, Rücken- und Armlehnen mit reinen Gänsefedern gefüllt. Füße aus vernickeltem und gebürstetem Stahl. Abnehmbarer Bezug aus Stoff oder Leder.

Sofás monobloque

Estructura de acero. Suspensión del asiento sobre cintas elásticas. Cojín asiento de poliuretano/ Dacron Du Pont; respaldo y apoyabrazos de plumas de ganso. Patas de acero niquelado y cepillado. Tapizado desenfundable de tejido o de piel.

Un altro divano, ancora in pelle, ancora perfettamente sintonizzato con il proprio tempo, in cui questa volta la struttura rettangolare razionale e la trapuntatura sembrerebbero alludere a un abitare borghese, immancabilmente sconfessato con ironia dall'irriverenza interpretativa del trio.

Another sofa, again in leather, again perfectly in keeping with its time, where this time the rational rectangular structure and the quilting would appear to allude to bourgeois living, inevitably repudiated ironically by the interpretative irreverence of the trio.

Willie Landels
Nato nel 1928 /
He was born in 1928

Una poltrona che ha segnato un'epoca, in cui il disegno rigoroso geometrico e razionale galleggia, in anticipo sui tempi, nell'impiego del poliuretano espanso, che consente di liberare la struttura da qualunque elemento portante. È stata progettata dallo scozzese, naturalizzato italiano, Willie Landels, pittore e grafico, poco noto nell'ambito del design e dell'architettura, che però è riuscito a ottenere con questo progetto la prima medaglia d'oro al M.I.A nel 1970.

An armchair that has marked an era, with a floating rigorous geometrical and rational design, ahead of the times, featuring the use of polyurethane foam, which allows the structure to be released from any load-bearing elements. It was designed by the Scotsman, naturalised Italian, Willie Landels, painter and graphics expert, little known in the world of design and architecture, however who managed to clinch the first gold medal at the 1970 M.I.A with this design.

in/out (1034)

Divani monoblocco e pouf per interni ed esterni

Nella versione per interni struttura in acciaio verniciato colore cromo, bianco o nero. Molleggio su nastri elastici. Cuscini seduta, schienale e bracciolo in piuma d'oca – materiale 100% vergine. Rivestimento sfilabile in stoffa o in pelle. È disponibile la versione con struttura e nastri elastici ricoperti in cuoio pigmentato 90. Nella versione per esterni la struttura è in acciaio verniciato colore bianco o nero. Tutti i cuscini sono in polietere reticolato a cellula aperta/paineira, fibra vegetale idrorepellente. Rivestimento sfilabile in tessuto Talasso.

Monobloc sofas and pouf for indoors and outdoors

For indoor version the frame is in painted steel in the shades chrome, white or black. Elastic strips suspension. Seat, back and armrest cushions in goose feathers – 100% pure material. Removable fabric or leather cover. The version with frame and elastic strips suspension covered with cowhide pigmentato 90 is also available. For outdoor version the frame is in painted steel in the shades white or black. All the cushions are in open-cell reticulated polyether/paineira, water-repellent vegetal fibre. Removable cover in fabric Talasso.

Canapés monoblocs et pouf pour intérieurs et extérieurs

En version pour intérieurs structure en acier verni en chrome, blanc ou noir. Suspension sur sangles élastiques. Coussins d'assise, dossier et accoudoir en plume d'oie – matériau 100% vierge. Revêtement déhoussable en tissu ou en cuir. C'est disponible aussi une version avec structure et sangles élastiques couverts en cuir sellier pigmentato 90. En version pour extérieurs la structure est en acier verni, couleur blanc ou noir. Tous les coussins sont en polyéther réticulé à cellule ouverte/paineira, fibre végétale hydrofuge. Revêtement déhoussable en tissu Talasso.

Einteilige Sofas und Hocker für Innen und Außen.

Für die Innenausführung Gestell aus chrom-weiß, oder schwarzfarben lackiertem Stahl. Federung auf elastischen Gurten. Sitzkissen, Rücken- und Armlehne mit 100% reinen Gänsefedern. Abnehmbarer Bezug aus Stoff oder Leder. Die Ausführung mit Gestell und elastischen Gurten mit Kernleder pigmentato 90 bezogen ist auch erhältlich. Für die Außenausführung ist das Gestell mit Lackierung, in den Farben weiß oder schwarz verfügbar. Die Sitzkissen sind aus vernetztem Polyether mit offenen Zellen/paineira, Pflanzenfaser, wasserabweisend. Abnehmbarer Bezug aus Stoff Talasso.

Sofás monobloque y pouf para interiores y exteriores

contract

Poltrona, divani monoblocco, componibili, pouf, dormeuse e mensole

Piedini in lega di alluminio lucidato, nichelsatinato colore naturale o nero, oppure verniciato nero. Struttura in acciaio. Molleggio su nastri elastici. Imbottitura in poliuretano/fibra poliestere termolegata. Cuscini seduta, schienale e bracciolo in piuma d'oca. Rivestimento sfilabile in stoffa o in pelle. Le poltrone allungate senza bracciolo e i divani terminali sono predisposti per l'attacco di una mensola in legno massello di rovere verniciato colore naturale o tinto grigio oppure in noce canaletto verniciato colore naturale. Reggi-mensole in alluminio lucidato, nichelsatinato colore naturale o nero, o verniciato nero.

Armchair, monobloc, modular sofas, pouf, day bed and shelves

Aluminum alloy feet, either polished or with natural or black nickel-satin finish, or black painted. Steel frame. Elastic strips suspension. Upholstery in polyurethane/heat-bound polyester fibre. Seat, back and armrest cushions upholstered with goose down. Removable fabric or leather cover. The lounge chairs without armrest and the end-sofas are fit to arrange a solid wood shelf, in natural or grey painted oak or in natural painted Canaletto walnut. Shelf supports in polished, with natural or black nickel-satin finish, or black painted aluminum.

Fauteuil, canapés monoblocs, composables, pouf, dormeuse et étagères

Pieds en alliage d'aluminium poli, ou nickel-satiné, dans les couleurs naturel ou noir, ou verni noir. Piètement en acier. Suspension sur sangles élastiques. Rembourrage en polyuréthane/fibre polyester liée à chaud. Rembourrage dossier en mousse de polyuréthane autoextinguible/fibre polyester liée à chaud. Coussins d'assise, dossier et accoudoirs en plume d'oie. Revêtement déhoussable en tissu ou en cuir. Les fauteuils allongés sans accoudoir et les canapés composables sont prédisposés pour l'accrochage d'une étagère en bois massif rouvre verni naturel ou teinté gris ou en noyer Canaletto verni naturel. Supports d'étagère en aluminium poli, ou nickel-satiné, dans les couleurs naturel ou noir, ou verni noir.

Sessel, einteilige, zusammenstellbare Sofas, Hocker, Liege und Stützfläche

Füße aus polierter Aluminiumlegierung, oder mit naturfarben- oder schwarz-vernickeltem und mattiertem Finish, oder schwarz lackiert. Gestell aus Stahl. Federung auf elastischen Gurten. Polsterung aus Polyurethan/wärmegebundener Polyesterfaser. Sitz-, Rücken- und Armlehnenpolsterung aus Gänsefedern. Abnehmbarer Bezug aus Stoff oder Leder. Die Liege-Sessel ohne Armlehne und die zusammenstellbaren Sofas werden zur Befestigung einer Stützfläche ausgestattet, die entweder aus Massivholz in naturfarbener oder grau-gebeizter Eiche, oder in naturfarben lackiertem Nussbaum Canaletto erhältlich ist. Stützfläche-Träger aus poliertem Aluminium, oder mit naturfarben- oder schwarz-vernickeltem und mattiertem Finish, oder schwarz lackiert.

Butaca, sofás monobloque, modulares, pouf, butacas alargadas y repisas

Patas de aleación de aluminio pulido o niquelado mate en los acabados natural o negro, o pintado negro. Estructura de acero. Suspensión sobre cintas elásticas. Acolchado de poliuretano/fibra poliéster termounida. Cojines asiento, respaldo y apoyabrazo de pluma de ganso. Tapizado desenfundable de tejido o de piel. Las butacas alargadas sin apoyabrazos y los sofás modulare se preparan para fijar una repisa en madera maciza de roble pintado color natural o teñido gris, o en nogal Canaletto pintado color natural. Soportes de las repisas en aluminio pulido o niquelado mate en los acabados natural o negro, o pintado negro.

(1875)

Letti con o senza vano contenitore

Struttura in acciaio. Molleggio in doghe di faggio curvato con regolatori di rigidità. Testiera e base imbottite in poliuretano/fibra poliestere termolegata. Rivestimento trapuntato, sfilabile, in stoffa o in pelle. Il letto, nella versione 1874, all'interno della base, è dotato di un vano contenitore al quale si accede alzando il materasso tramite un meccanismo. A richiesta, solo per il modello 1875, è possibile fornire il letto con supporti angolari regolabili che permettono l'inserimento della rete ad altezze diverse e la misura per il materasso da 210 cm di lunghezza.

Beds with or without container unit

Steel frame. Suspension in bent beech strips with stiffness adjusters. Upholstered base and headboard in polyurethane/heat-bound polyester fibre. Removable quilted cover in fabric or leather. The bed of the version 1874, fitted inside the base, is furnished with a container unit accessed by lifting the mattress with a special device. Upon request, only for the version 1875, the bed with adjustable corner supports that enable to place the springing at different heights and the bed size for 210 cm. long mattress can be supplied.

Lits avec ou sans élément de rangement

Structure en acier. Suspension en douves de hêtre courbé, avec régulateurs de rigidité. Cadre et tête de lit rembourrés en polyuréthane/fibre polyester liée à chaud. Revêtement surpiqué déhoussable en tissu ou en cuir. En version 1874 le lit, à l'intérieur du cadre, est doté d'un élément de rangement auquel l'on accède en levant le matelas à l'aide d'un mécanisme. Sur demande, seulement pour le modèle 1875, il est possible de fournir le lit avec des supports angulaires réglables qui permettent l'introduction du sommier à des hauteurs différentes et dans la mesure pour un matelas de 210 cm de longueur.

Betten mit oder ohne Stauraum

Gestell aus Stahl. Lattenrost aus gebogenen Buchen-Dauben, in der Nachgiebigkeit regulierbar. Unterteil und Kopfteil mit Polsterung aus Polyhurethan/wärmegebundener Polyesterfaser. Abnehmbarer Bezug aus Stepp-Stoff oder Leder. Die Ausführung 1874 hat im Bettrahmen einen integrierten Stauraum, der über einen Mechanismus zum Anheben der Matratze zugänglich wird. Auf Nachfrage, nur für die Version 1875, ist das Bett mit verstellbaren Winkelhalterungen lieferbar, die die Einfügung des Rostes in verschiedenen Höhen ermöglichen. Die Bett-Maße für die Matratze 210 cm lang ist auch verfügbar.

Camas con o sin base contenedora

Estructura de acero. Somier con lamas de haya curvadas con reguladores de rigidez. Base y cabezal acolchados de poliuretano/fibra poliéster termounida. Tapizado pespunteado desenfundable de tejido o de piel. La cama en el modelo 1874 está provista de una base contenedora a la cual se accede alzando el colchón por medio de un mecanismo al efecto. Sobre pedido, solo por el modelo 1875 podemos suministrar la cama con los soportes angulares regulables para poder poner el somier a alturas diferentes y en la medida para el colchón de 210 cm de largo.

Progettata nel 1959 da Carlo Mollino, questa famosissima seduta è interamente realizzata in legno massello di acero. E sembra uscita da un dipinto surrealista o da un sogno del suo autore. Esempio di eleganza, irriverenza, fantasia.

Designed by Carlo Mollino in 1959, this very famous chair is made entirely of solid maple wood. It looks like it has come straight out of a surrealist painting or one of its author's dreams. An example of elegance, irreverence, imagination.

Sedia sovrapponibile
Struttura in lega di alluminio lucidato oppure verniciato colore nero, grafite o bianco. Sedile e schienale imbottiti in poliuretano. Rivestimento sfilabile in stoffa o in pelle oppure non sfilabile in cuoio. A richiesta vengono fornite due fodere copriesedia da calzare senza fissare: in tessuto 100% cotone, colore bianco, disponibile sia corta che ricopre sedile e schienale sia lunga che ricopre anche le gambe; oppure in tessuto Canneto, 100% lino, disponibile solo lunga. A richiesta è disponibile un carrello per il trasporto delle sedie impilate (massimo 15 sedie).

Stackable chair
Aluminum alloy frame, polished or painted black, graphite or white. Seat and back upholstered in polyurethane. Removable cover in fabric or leather or non-removable in cowhide. Upon request two loose covers to be put on without fixing can be supplied: in 100% white cotton, available either short covering seat and backrest or long covering legs too; or in fabric Canneto, 100% linen, available long only. Upon request a trolley for carrying

the stacked chairs (max 15 chairs) is available.

Chaise superposable
Structure en alliage d'aluminium poli ou verni, couleur noir, graphite ou blanc. Siège et dossier rembourrés en polyuréthane. Revêtement déhoussable en tissu ou en cuir ou pas déhoussable en cuir sellier. Sur demande on peut fournir deux housses à poser sans les fixer pour protéger les chaises: en tissu 100% coton, couleur blanche, dans les versions courte qui couvre assise et dossier ou longue qui couvre même les pieds; ou en tissu Canneto, 100% lin, seulement longue. Sur demande est disponible aussi un chariot pour déplacer les chaises superposées (maximum 15 chaises).

Stapelbarer Stuhl
Gestell aus polierter Aluminiumlegierung oder Graphit, schwarz oder weiß lackiert. Sitz und Rückenlehne Polyurethan-gepolstert. Abnehmbarer Bezug aus Stoff oder Leder oder aus nicht abnehmbarem Kernleder. Auf Nachfrage sind zwei lose Bezüge verfügbar, die auf dem Stuhl ohne befestigen

anzuziehen sind: aus 100% weißer Baumwolle, in zwei Versionen lieferbar, kurz, der Sitz und Rücken überzieht, oder lang, der auch die Beine überzieht; oder aus Canneto Stoff, 100% Leinen, nur lang lieferbar. Auf Nachfrage ist ein Wagen zum Transport der gestapelten Stühle (max 15 Stühle) lieferbar.

Silla apilable
Estructura de aleación de aluminio pulido o pintado de color negro, grafito o blanco. Asiento y respaldo acolchados con espuma de poliuretano. Tapizado desenfundable de tejido o de piel o no desenfundable de cuero. A pedido suministramos dos fundas de poner sobre la silla sin fijarlas: de tejido 100% algodón, color blanco, disponible corta que cubre asiento y respaldo o larga que cubre también las patas; o en tejido Canneto 100% lino disponible solo larga. A pedido suministramos un carro para transportar las sillas apiladas (maximo 15 sillas).

Enzo Mari

Nato nel 1932, si dedica al disegno industriale, rivoluzionando il concetto di design attraverso creazioni che non sentono l'usura del tempo, libere dalle mode, il cui senso risiede, oltre che nel costante e lungo lavoro di ricerca, nella qualità delle forme. / Born in 1932, he devoted to the industrial design, revolutionizing the concept of design through creations able to withstand the test of time and free from fashions, whose sense lies in the long lasting and ongoing research, in the quality of shapes.

Esile, elegante, austera, ecco la sedia essenziale. Tra tutti i designer, Enzo Mari è quello che maggiormente ha aderito all'urgenza dell'archetipo nel progetto, a un'idea del disegno come traduzione della natura di un materiale o di una funzione in un oggetto rigoroso, all'arredo come presenza tranquillizzante e al tempo stesso dotata di una carica animistica.

Slight, elegant, austere, this is a striking yet simple chair. Of all designers, Enzo Mari is the one who has best accommodated the urgency of the archetype in design, the idea of design as the translation of the nature of a material or of a function in a rigorous object, of furnishings as a reassuring presence yet at the same time one that is filled with an animistic charge.

Gae Aulenti (1927-2012)
Architetto e docente all'Università di Venezia e Milano, ha partecipato negli anni '50 e '60 al movimento poi classificato "Neo-Liberty", le cui componenti di originalità si riscontrano in diversi suoi progetti. / Architect and teacher at the Universities in Venice and Milan, in the '50s and '60s she participated in the movement that came to be called "Neo-Art-Nouveau" whose original components can be traced in several of her schemes.

“Cose minimali è molto difficile che ne faccia perché io non cerco il minimalismo, semmai la semplicità che è una cosa molto differente”. Sono le parole di Gae Aulenti che con questa sedia pieghevole da esterni che un po' mima l'iconica sedia da regista, porta il suo tocco architettonico in un oggetto dal risultato semplice ma tecnicamente sofisticato.

“It's very rare for me to do anything minimal, because I don't seek minimalism, if anything I look for simplicity, which is a completely different thing”. These are the words of Gae Aulenti who, in this folding outdoor chair which somewhat resembles an iconic director's chair, adds an architectural touch to an object with a simple yet technically sophisticated end result.

Celestina

Questa sedia è l'antonomasia. Leggera ed essenziale, eppure impreziosita da dettagli come l'acciaio per la struttura e il nylon dei listelli e il cuoio del rivestimento per sedile e schienale. Disegnata nel 1978 da Marco Zanuso è la conferma di come per il design modernista il tema della forma sia una funzione ben risolta. E viceversa.

This chair is iconic by definition. Light-weight and strikingly simple, yet embellished with details such as the steel structure and the nylon slats and the cowhide seat and backrest upholstery. Designed by Marco Zanuso in 1978, it confirms the fact that the theme of form is a well-resolved function for modernist design. And vice-versa.

Poltroncine

Gambe in rovere naturale o tinto noce Canaletto. Struttura in acciaio cromato o verniciato nero. Scocca in poliuretano integrale rinforzato con inserto in acciaio, colore bianco o nero oppure rivestita in Ecofire o pelle, non sfoderabile, con sedile imbottito in poliuretano flessibile. La versione 2266/R prevede un rivestimento sfoderabile in stoffa o pelle accoppiato a Dacron Du Pont, con sedile imbottito in poliuretano flessibile.

Armchairs

Legs in natural or Canaletto walnut dyed oak. Chromium-plated or black painted steel frame. Body in integral polyurethane strengthened with a steel insert, in black or white or covered with non-removable Ecofire or leather and seat upholstered with flexible polyurethane. The version 2266/R features a removable cover in fabric or leather, coupled with Dacron Du Pont, and seat upholstered with flexible polyurethane.

Petits fauteuils

Pieds en rouvre naturel ou teinté noyer Canaletto. Structure en acier chromé ou verni noir. Coque en polyuréthane intégral renforcé par un insert en acier, de couleur blanche ou noire ou revêtue en Ecofire ou en cuir, non déhoussable, avec assise rembourrée en

polyuréthane flexible. Le modèle 2266/R prévoit un revêtement déhoussable en tissu ou en cuir couplé à Dacron Du Pont, avec assise rembourrée en polyuréthane flexible.

Kleine Sessel

Beine aus Eiche, naturfarben oder Nussbaum Canaletto-gebeizt. Verchromtes oder schwarz lackiertes Stahlgestell. Sitzschale aus Voll-Polyurethan, mit Stahleinsatz verstärkt, weiß oder schwarz mit nicht abnehmbarem Ecofire oder Leder bezogen, und Sitzpolsterung aus flexiblem Polyurethan. Die Version 2266/R hat einen abnehmbaren Bezug aus Stoff oder Leder, gekoppelt mit Dacron Du Pont, und Sitzpolsterung aus flexiblem Polyurethan.

Butaquitas

Patas de roble natural o teñido nogal Canaletto. Estructura de acero cromado o pintado negro. Armazón de poliuretano integral reforzado con inserción de acero, color blanco o negro, o tapizado en Ecofire o piel non desenfundable, con asiento acolchado en poliuretano flexible. Por el modelo 2266/R tapizado desenfundable de tejido o piel acoplado a Dacron Du Pont con asiento acolchado de poliuretano flexible.

Sgabelli

Struttura in lega di alluminio (2292) oppure in lega di alluminio lucidato o verniciato colore nero, grafite o bianco (2291). Sedile e schienale imbottiti in poliuretano. Rivestimento sfilabile in stoffa o in pelle oppure non sfilabile in cuoio. Poggiatesta in acciaio inox satinato. A richiesta viene fornita una fodera copri sgabello, in tessuto 100% cotone, colore bianco, da calzare senza fissare, che ricopre sedile e schienale.

Stools

Frame in aluminum alloy (2292) or in polished aluminum alloy, or painted black, graphite or white (2291). Seat and back with polyurethane upholstery. Removable cover in fabric or leather or non-removable in cowhide. Footrest in satin-finished stainless steel. Upon request a 100% white cotton loose stool cover to be put on without fixing, covering seat and backrest, can be supplied.

Tabourets

Structure en alliage d'aluminium (2292) ou en alliage d'aluminium poli, ou verni couleur noir, graphite ou blanche (2291). Assise et dossier rembourrés en polyuréthane. Revêtement déhoussable en tissu ou en cuir ou pas déhoussable en cuir sellier. Appuie-pieds en acier inox satiné. Sur demande on va fournir une housse qui protège le tabouret en tissu 100% coton, couleur blanche, de poser sans la fixer, qui couvre assise et dossier.

Hocker

Gestell aus Aluminiumlegierung (2292) oder aus polierter Aluminiumlegierung, oder schwarz, Graphit oder weiß lackiert (2291). Sitz und Rückenlehne mit Polsterung aus Polyurethan. Abnehmbarer Außenbezug aus Stoff oder Leder oder aus nicht abnehmbarem Kernleder. Fußstütze aus satiniertem Edelstahl. Auf Nachfrage ist ein loser Bezug aus 100% weißer Baumwolle lieferbar, der auf dem Hocker ohne befestigen anzuziehen ist und Sitz und Rücken überzieht.

Taburetes

Estructura de aleacion de aluminio (2292) o de aleacion de aluminio pulido o barnizado color negro, grafito o blanco (2291). Asiento y respaldo acolchados de poliuretano. Tapizado desenfundable de tejido o de piel o no desenfundable de cuero. Reposapiés de acero inoxidable satinado. A pedido suministramos una funda que protege el taburete de tejido 100% algodón, color blanco, de poner sobre el taburete sin fijarla, que cubre asiento y respaldo.

Per Mollino, “l’ambiente è una scenografia dell’esistenza e risente molto di suggestioni surrealiste”. I suoi mobili sono esposti ora in tutti i principali Musei del mondo, dal MoMA (Museum of Modern Art) di New York al Victoria & Albert Museum di Londra. Questo stesso tavolo rappresenta una specie di pezzo hi-tech ante litteram. E come la poltrona Gilda allude a un mondo visionario, spregiudicato, leggero pur se di maniera e al tempo stesso sapientemente risolto dal punto di vista tecnico.

For Mollino, “the environment is a scene of existence and it is highly affected by surrealist suggestions”. His furniture is now on display in all the major Museums across the globe, from the New York MoMA (Museum of Modern Art) to the Victoria & Albert Museum in London. This same table constitutes a kind of hi-tech piece ante litteram. Like the Gilda armchair, it alludes to a visionary, unscrupulous, light-weight world albeit concurrently skilfully achieved from a technical perspective.

“Effettivamente la cosa che mi ha sempre molto interessato è di cambiare il mio metodo. Cioè occuparmi una volta di un oggetto, una volta di un altro, perché credo di trovare sempre un interesse nella diversità del tema da affrontare. Il che deve essere fatto libero nella forma, ma rispettoso dei principi, appunto, del razionalismo, della formazione culturale che ho avuto. Questo mi pare che potrebbe essere il riassunto del concetto per far capire ai giovani ciò che ho insegnato per vent’anni al politecnico. L’unica cosa che mi è sembrato di poter insegnare è proprio questo. Una maniera semmai è scegliere le cose che ti interessano, approfondire quelle e, allora, lavorare non è più una nostra condizione. È una gioia sempre”.

(Marco Zanuso; Lezioni di design, RAI)

Actually, what I have always really been interested in is changing my method. In other words, taking care of one object, then of another, because I am always keen on the diversity of the theme to tackle. And this should be done with freedom of form, yet specifically abiding by the principles of rationalism, of the cultural background I have. I think this could sum up the concept for young people to understand what I taught at the polytechnic university for twenty years. The only think that I felt prepared to teach is indeed this. One thing if anything is to choose things you are interested in, investigate them, and then working is no longer a condition for us. It is always a joy.

(Marco Zanuso; Lezioni di design [Design lessons], RAI)

Quadritondo

2550

design
Nostro archivio

105x105 cm - Ø 148 cm
128x128 cm - Ø 180 cm

Tavolo ampliabile

Piano in legno verniciato goffrato antigraffio, colore bianco o nero, o con impiallacciatura in rovere naturale o tinto grigio. Basamento in ghisa verniciato, colore alluminio, nero o grafite. Il tavolo si trasforma da quadrato in ellittico, mediante ribaltamento di due alette collocate sotto il piano, oppure in tondo mediante ribaltamento di quattro alette.

Extension table

Wood top with white or black, scratch-resistant embossed finish. It is also available veneered in natural or grey varnished oak. Painted cast-iron base, colours: aluminum, black or graphite. The table converts from a square into an elliptic one by swinging up two leaves located under the top; by swinging up all four, it becomes a round table.

Table à rallonges

Plateau en bois verni gaufré antirayures, couleur blanche ou noire ou avec placage en rouvre naturel ou teinté gris. Piétement en fonte verni, couleur aluminium, noire ou graphite. Cette table peut être carrée ou elliptique, en relevant les deux rallonges placées sous le plateau, ou bien on peut la transformer en table ronde en relevant les quatre rallonges.

Erweiterbarer Tisch

Platte aus Holz, kratzfest gaufriert lackiert, Farbe weiß oder schwarz - oder mit Furnierung aus naturfarbener oder grau gebeizter Eiche. Basis aus alufarben, schwarz oder Graphit lackiertem Gusseisen. Durch Aufklappen von zwei Flügeln unter der Platte wird der quadratische Tisch zum elliptisch oder zum Rund durch Aufklappen der vier Flügel.

Mesa ampliabile

Sobre de madera lacada con relieve antirasguño, de color blanco o negro, o chapado de roble natural o teñido gris. Base de hierro fundido pintado en los colores: aluminio, negro o grafito. La mesa se transforma de cuadrada en elíptica, levantando dos alas alojadas debajo del sobre, o en redonda levantando las cuatro alas.

Piero Bottoni (1903-1973)
L'impegno militante per l'architettura moderna lo porta a svolgere una intensa attività di organizzatore di cultura, oltreché di progettista e pubblicista: è membro fondatore del gruppo milanese del Miar e partecipa alle Esposizioni di Architettura Razionale negli anni '30. Il suo lavoro di progettista si è mantenuto fedele alla ricerca di una unità fra urbanistica e architettura. /

His commitment to modern architecture led him to work intensively as a cultural organizer, free-lance journalist and designer-architect. He was a founding member of the Milan-based Miar group and he took part in the Rationalist Architecture Expositions in Rome in the '30s. His work as designer always quested after the goal of unifying planning and architecture.

Il rapporto tra Zanotta e il movimento dell'architettura razionalista caratterizza una parte cospicua del catalogo aziendale. Questo tavolo fu disegnato dal maestro di urbanistica Piero Bottoni nel 1936 per Villa Muggia a Imola, progettata insieme a Mario Pucci. La villa racchiude in una struttura di cemento e vetro un edificio adibito all'attività venatoria nel 1700. Durante la seconda guerra mondiale gran parte dell'edificio è andato distrutto e in seguito non è mai stato recuperato. Il tavolo, oggi in Polimex®, emula l'aspetto originario con una resina cementizia innovativa.

The relationship between Zanotta and the rationalist architecture movement distinguishes a conspicuous part of the company catalogue. This table was designed by the urban planning maestro Piero Bottoni for Villa Muggia in Imola in 1936, designed together with Mario Pucci. The villa encloses in a concrete and glass structure a building used for hunting during the 18th Century. During second world war, a large portion of the building was destroyed and was subsequently never rebuilt. The table, now in Polimex®, emulates the original appearance with an innovative cement resin.

Joe Colombo
(1930-1971)

Benché sia mancato a soli 41 anni, il contributo di Joe Colombo al design industriale è pari a quello dei grandi maestri della storia. La forte impronta avanguardistica del suo lavoro è evidente nella rottura con le tipologie della tradizione e condotta attraverso un marcato interesse per la dimensione cinetica e per il cambiamento e la trasformabilità degli oggetti, anche come reazione al progetto razionalista in voga in centro Europa nel medesimo periodo. Non è un caso che alcuni dei suoi oggetti più iconici e provocatori alludano proprio a un mondo metaborghese del vizio e del gioco.

Although he passed away at the age of just 41, Joe Colombo's contribution to industrial design rivals that of the great masters in history. The strong vanguard spirit of his work is evident with the break from traditional types and conducted through a notable interest in the kinetic dimension and in the change and transformability of objects, also as a reaction to the rationalist design that was fashionable in central Europe at the same time. It is no accident that some of his most iconic and provocative objects allude specifically to a half-bourgeois world of vices and gambling.

Edizioni

Zanotta Edizioni, nata nel 1989, è una particolare collezione di oggetti d'arredo che si colloca in una zona di confine tra arte e design.

I pezzi di questa collezione si ispirano alla tradizione dell'artigianato artistico italiano. Liberati dai vincoli della produzione industriale, hanno una forte componente di lavoro "fatto a mano". Alcuni di essi ripropongono, per recuperarle, tecniche in disuso come l'intarsio o la decorazione pittorica mentre altri sono realizzati con tecniche nuove e sperimentali. Questi oggetti sono da scegliere come si scelgono e amano i quadri, le sculture, i tappeti o i mobili d'antiquariato. Come questi, sono destinati a valorizzare emotivamente l'ambiente domestico. La piccola serie nella quale vengono prodotti, o la numerazione limitata, ne accrescono il valore nel tempo.

Nel 1991, per il suo "forte spessore culturale", la collezione Zanotta Edizioni, ha ottenuto la Segnalazione d'Onore nell'ambito del prestigioso Premio Compasso d'Oro.

Zanotta Edizioni was formed in 1989 as a special collection of furnishing items verging on art and design.

Items in this collection are inspired by the Italian artistic handcrafting tradition. Free from the bonds of industrial production, they are charged with the powerful charm of "handmade" objects. Some of them repropose and recover techniques that have fallen into disuse (e.g. marquetry and pictorial decoration), while others are made with new experimental methods. Such objects must be chosen with the same care given to the choice of paintings, sculptures, carpets and antique furniture since, like the latter, they are meant to emotionally enhance the domestic environment. The small series limited number - in which they are produced increases their value in time.

In 1991 the Zanotta Edizioni collection was awarded an honours acknowledgement in the framework of the prestigious Compasso d'Oro Award for its "powerful cultural features".

Zanotta Edizioni, née en 1989, est une particulière collection d'objets de décoration qui se situe dans une zone entre l'art et le design.

Les pièces de cette collection s'inspirent de la tradition de l'artisanat artistique italien. Libérées des obligations de la production industrielle, elles ont une forte composante de travail "fait à la main". Certaines d'entre elles proposent, pour les récupérer, des techniques tombées en désuétude comme la marqueterie ou la décoration picturale, alors que d'autres sont réalisées avec des techniques nouvelles et expérimentales. Ces objets doivent être choisis comme l'on choisit et l'on aime des tableaux, des sculptures, des tapis ou des meubles anciens. Ils sont destinés, comme ceux-ci, à mettre en valeur émotivement l'environnement domestique. Ils sont produits en petite série, ou avec une numérotation limitée, ce qui en accroît la valeur dans le temps.

En 1991, pour sa "grande importance culturelle", la collection Zanotta Edizioni a obtenu la Mention Spéciale dans le cadre du prestigieux Prix Compasso d'Oro.

Die 1989 geschaffene Sonderkollektion Zanotta Edizioni umfasst Einrichtungsgegenstände aus einem Grenzbereich zwischen Kunst und Design.

Die Stücke dieser Kollektion berufen sich auf die kunsthandwerkliche Tradition Italiens. Frei von den Maßgaben der industriellen Produktion kennzeichnen sie sich durch einen hohen Anteil an "Handarbeit". Teilweise werden zu ihrer Fertigung heute nicht mehr gebräuchliche Techniken wie Intarsien oder Handmalereien angewendet und zu neuem Leben erweckt, während andere Stücke mit neuen und experimentellen Techniken gearbeitet sind. Gewählt werden diese Objekte wie Bilder, Skulpturen, Teppiche oder Antiquitäten, denn sie verleihen dem Heim eine ganz persönliche Note. Da sie nur in kleiner Serie oder begrenzter Stückzahl hergestellt werden, erhöht sich ihr Wert mit der Zeit.

Aufgrund ihrer "beeindruckenden kulturellen Tragweite" hat die Kollektion Zanotta Edizioni im Jahr 1991, im Rahmen der renommierten Preisverleihung Compasso d'Oro, eine Ehrenauszeichnung erhalten.

Zanotta Edizioni, nacida en 1989, es una colección especial de objetos de decoración que se ubica en la frontera entre arte y diseño.

Las piezas de esta colección se inspiran en la tradición del artesanado artístico italiano. Liberadas de los vínculos de la producción industrial, tienen un fuerte componente del trabajo "hecho a mano". Algunas reponen, para recuperarlas, técnicas en desuso, como la taracea o la decoración pictórica, mientras que otras se realizan con técnicas nuevas y experimentales. Estos objetos deben elegirse como se eligen y se adoran los cuadros, las esculturas, los tapetes o los muebles de anticuario. Como éstos, están destinados a otorgar un ulterior valor emotivo al ambiente doméstico. La pequeña serie en la que se producen, o la numeración limitada, aumentan su valor a lo largo del tiempo.

En 1991, por su "fuerte espesor cultural", la colección Zanotta Edizioni obtuvo la Mención de Honor en el ámbito del prestigioso Premio Compasso d'Oro.

Dal 1992 Fondazione Altagama riunisce i marchi dell'eccellenza italiana famosi a livello internazionale.

Since 1992 the Altagama Foundation has gathered together high-end Italian brands famous at international level.

Zanotta è certificata secondo le norme internazionali UNI EN ISO 9001 per i sistemi di gestione per la qualità e OHSAS 18001 per la sicurezza e salute sui luoghi di lavoro.

Zanotta is certified according to international standards UNI EN ISO 9001 for the quality management systems and OHSAS 18001 for the safety and health in the workplace.

Zanotta spa si riserva di apportare, senza preavviso, modifiche nei materiali, nei rivestimenti, nelle finiture e nei disegni dei prodotti presentati in questo catalogo. Le textures ed i colori dei materiali e delle finiture hanno valore indicativo in quanto soggetti alle tolleranze dei processi di stampa.

Zanotta spa reserves the right to change, without previous notice, materials, covers, finishes and drawings of the products presented in this catalogue. The textures and colours of materials and finishes are indicative as they are depending on the tolerances of the printing process.

Zanotta spa se réserve le droit d'apporter, sans préavis, des modification au niveau des matériaux, des revêtements, des finitions et du design des produits présentés dans ce catalogue. Les textures et les couleurs des matériaux et des finitions sont une valeurs indicative parce-que ils changent selon la tolérance aux procédés d'imprimerie.

Zanotta spa behaltet sich vor, ohne Vorankündigung, Veränderungen an den Materialien, Bezügen, Finish und Zeichnungen der in diesem Katalog vorgestellten Produkte vorzunehmen. Die Texturen und Farben der Materialien und Finish haben einen hinweisenden Wert, da sie von den Toleranzen im Druckprozess abhängig sind.

Zanotta spa se reserva el derecho de aportar modificaciones de dibujo, materiales, acabados y tapicerías, sin que esté obligada a dar aviso antipado. Las textures y los colores de los materiales y de los acabados tienen solo un valor indicativo porque estan sujetos a la tolerancia en los procesos de imprenta.
